325.040	627.040	LC - LCP SCREW Ø 2.4 MM 40 MM

Specification

- All screws are available in SS & TT.

Indication for use

- LC-LCP Screw Ø 2.4 mm – Hexagonal Head is indicated for use in the fixation of small to medium-sized animal fractures and osteotomies. It is compatible with LC-LCP plates to provide stable fixation and promote optimal bone healing. The hexagonal head design allows reliable engagement with the screwdriver, ensuring precise insertion and secure fixation.
