8	LCP PLATES 2.7 MM, 14H, 126MM LOW CONTACT	TT
9	LCP PLATES 2.7 MM, 16H, 144MM LOW CONTACT	TT

Specification

- Product is available in TT.

Indication for use

- Indicated for internal fixation of small to medium-sized bone fractures in veterinary patients.

The low-contact design minimizes disruption to periosteal blood supply while providing angular stability and rigid fixation for metaphyseal, diaphyseal, and comminuted fractures.
