798.913	TTA CAGE CUT ABLE PLATE 6.0

Specification

- Product is available in TT.

Indication for use

- The TTA cuttable cage/plate is indicated for use in veterinary orthopaedic surgery to stabilize the stifle joint in dogs with cranial cruciate ligament (CCL/CrCL) rupture or insufficiency. It is used during Tibial Tuberosity Advancement procedures to maintain the advanced tibial tuberosity position after osteotomy, with intraoperative length adjustment for anatomical fit.
