

**METAL HEAD**

CAT. NO.	PRODUCT DESCRIPTION	MAT.
800.256S	METAL HEAD 16.0MM STERLISED FOR VETERINARY JOINTS	SS
800.259S	METAL HEAD 19.0MM STERLISED FOR VETERINARY JOINTS	SS

Specification

- Product is available in SS.

Indication for use

- Metal heads are used in veterinary joint replacement procedures to provide a durable, wear-resistant articulating surface. They help restore smooth joint movement in cases of severe arthritis, fractures, or joint degeneration. Suitable for hip prosthesis systems in medium to large animals.
