| CAT. NO. | PRODUCT DESCRIPTION | MAT. |
| 1573.071 | PROTECTION SLEEVE 7 MM X 4.5 MM FOR VETERINARY THR | SS |

Specification

- Instrument is available in SS.

Indication for use

- The Protection Sleeve is used to protect soft tissues from injury during drilling or screw placement in veterinary surgical procedures. It helps guide the drill bit accurately and prevents contact between the rotating instruments and nearby tissues, ensuring safe and precise screw insertion.
