

TRAIL CUP LINNER		
CAT. NO.	PRODUCT DESCRIPTION	MAT.
1573.114	TRAIL CUP LINNER 23 MM FOR VETERINARY THR	DELRIN
1573.115	TRAIL CUP LINNER 26.5 MM FOR VETERINARY THR	DELRIN
1573.115	TRAIL CUP LINNER 29.5 MM FOR VETERINARY THR	DELRIN

Specification

- Instrument is available in Delrin material.

Indication for use

- The Trial Cup Liner is used intraoperatively during Total Hip Replacement (THR) procedures to evaluate joint stability, range of motion, and compatibility between the trial femoral head and the acetabular cup. It assists in confirming the optimal implant size and orientation before the final fixation of the prosthetic components.
