800.162S	UNCEMENTED STEM MEDIUM STERILISED FOR VETERINARY	TT
800.166S	UNCEMENTED STEM LARGE STERILISED FOR VETERINARY	TT

## Specification

- Uncemented Stem is available in TT.

## Indication for use

- The uncemented stem is indicated for use in total hip replacement (THR) or bipolar hip arthroplasty (BHA) to replace the damaged or diseased femoral component of the hip joint. It provides long-term fixation through bone integration, offering stable support and natural joint movement. Suitable for patients with good bone quality that allows for biological fixation.
