799.924	VETERINARY SPINE POLYAXIAL SCREW 2.5 X 24MM	TT

**Specification**

- All plates are available in TT.

**Indication for use**

- Spine Polyaxial Screw 2.5 mm is indicated for use in spinal fixation procedures in small animals. It is designed to stabilize and align the vertebrae during fusion or corrective surgeries for spinal fractures, deformities, or instabilities. The polyaxial head allows multi-directional screw angulation, enabling flexible rod placement and secure fixation.
