799.966	VETERINARY SPINE POLYAXIAL SCREW 3.5 X 26MM	TT

**Specification**

- All plates are available in TT.

**Indication for use**

- The 3.5mm Spine Polyaxial Screw is intended for use in spinal fixation procedures to provide stabilization and support during fusion of the thoracic, lumbar, or sacral spine. It allows multi-directional angulation between the screw and rod, facilitating accurate alignment and fixation in complex spinal constructs.

Suitable for both trauma and degenerative spinal conditions.
