

PROBE FEELER		
CAT. NO.	PRODUCT DESCRIPTION	MAT.
1573.001	PROBE FEELER FOR VETERINARY SPINE	SS

Specification

- Product is available in SS.

Indication for use

- The probe feeler is used during veterinary spinal surgeries to assess canal depth, verify screw trajectory, and ensure safe placement of implants. It helps surgeons confirm bone pathway integrity and avoid neural or vascular structures while preparing for pedicle or cortical screw insertion.
