

**ROD CUTTER**

CAT. NO.	PRODUCT DESCRIPTION	MAT.
1573.015	ROD CUTTER FOR VETERINARY SPINE	SS

Specification

- Product is available in SS.

Indication for use

- The Rod Cutter is used in veterinary spinal fixation procedures to precisely cut spinal rods to the required length. It provides clean, controlled cutting without deforming the rod ends. The instrument ensures accurate rod preparation, improving the fit and stability of the final spinal construct.
